

This following table summarises emerging findings from the Adaptive Rowing Strategy research process. Further work is currently underway to establish priorities, understand resource implications and to develop a plan of action. Your feedback on the six emerging strategic goals and the related actions is welcomed – please email adaptiverowing@britishrowing.org and let us know your key priorities. This feedback will then be used to inform the final strategy development process. Thank you!

1 Improve governance & resourcing	2 Invest in equipment	3 Improve coach education	4 Support quality competition	5 Improve classification	6 Improve information & communication
					
<p>A - Create an Adaptive Rowing Working Group</p> <p>B - Fund dedicated adaptive staff resource</p> <p>C - Identify adaptive rowing Champion on Regional Councils and BR Board</p> <p>D – Continue to develop the BR Adaptive Membership offer</p> <p>E – Ensure all British Rowing projects have an adaptive offer from conception</p> <p>F – Design and support a pilot exercise referral project with partners</p>	<p>A – Develop an online picture & short video library resource explaining types of equipment available for adaptive rowing</p> <p>B – Investigate the feasibility of an equipment loan programme covering boats & adaptations</p> <p>C – Develop an indoor adaptive equipment pack for clubs and gyms</p> <p>D - Collate information on adaptations that are low cost/ using every day materials</p> <p>E - Support development of British seat manufacturing</p>	<p>A – Produce a range of online bite size training and videos showing ‘How to’</p> <p>B – Scope out the market for online training with certification options</p> <p>C – Develop a plan to introduce inclusive elements to all British Rowing coaching levels as well as adaptive training offers</p> <p>D – Explore the need for a coaching & volunteer Peer Network</p> <p>E - Indoor instructor qualification for gym instructors / physio/ rehab specialists as part of an indoor adaptive rowing project</p> <p>F - Improve education on different impairments & adapting sessions</p>	<p>A – Scope operational potential for indoor adaptive rowing online league & events</p> <p>B - Develop an Adaptive Rowing Competition Plan with the aim of increasing racing opportunities</p> <p>C – Provide a suitable platform to match participants with available events</p> <p>D - Develop resource collating all types of recreational competition formats & opportunities for events</p> <p>E – Develop an online education module/ resources aimed at officials & water safety officials covering adaptive rowing</p>	<p>A – Investigate the need to develop domestic classification linked to membership</p> <p>B – Develop annual training opportunities for classifiers (current and new)</p> <p>C - Identify Regional classification leads for clubs and explore if there is a need for communication network for classifiers</p> <p>D - More classification opportunities for rowers distributed geographically</p> <p>E - Online video explaining classification, the process & athlete experience (myth busting)</p>	<p>A - Enhance British Rowing online offer through the website, adaptive forums and other online resources</p> <p>B - Communications strategy to promote grassroots adaptive rowing across platforms</p> <p>C – Develop appropriate comprehensive guidance on RowHow</p> <p>D - Cohesive plan for promotion of adaptive rowing</p> <p>E - Resource stalls at mainstream events</p>
